

Improving Quality of Life

Introducing... The Norwex Triple Pak

Ultra Plus Laundry Detergent - Dryer Balls - Magnet Ball

The Ultra Power Plus Laundry Detergent: A high-efficiency concentrated detergent used for all types of fabric. The Ultra Plus Laundry Detergent is low-sudsing, biodegradable, has optical brighteners and color enhancers. It is ideal to use in high-efficiency, front load washing machines. The detergent does not contain fillers, which cause excess wear, fading, and pilling on fabric.

- 2 kg bag will clean a minimum of 80 loads of (standard machine) of laundry.
- High-efficiency washing machines require only one teaspoon of detergent. Allowing for 240 loads 2kg bag.
- Low-sudsing, effective cleaning while gentle on your laundry
- Scent free save sensitive and infant clothing

The Norwex Magnetic Ball: Water has a positive and a negative charge, when detergents are placed into water binding occurs between the detergents and the minerals. The Magnet Ball attracts the minerals and metals to the magnet resulting in less detergent waste. Very little detergent can be used to achieve the excellent results. Used in your dishwasher you save on soap and no rinsing agent is required. The results are clean dishes and crystal clear glasses with no spots.

- Five year warranty
- Improves the quality of water
- Environmentally friendly
- Saves money on costly detergents/chemicals
- Reduce the amount of detergents used by 50 % - 70%

The Norwex Dryer Balls: designed to reduce drying time and soften fabrics naturally without the use of chemical fabric softener. The package of two Norwex Dryer Balls tumble around in the dryer they lift and separate fabrics allowing air to flow more efficiently

- Gently reduces static and wrinkles without the use of chemicals
- Softens fabric by lifting and separating the laundered items
- Reduces drying time by up to 25%
